

Invitation

GPs are invited to attend an evening discussion on general practice and primary care challenges and opportunities with the Hon. Michael Ferguson MP, Minister for Health.

This meeting is one of three regional meetings organised and hosted by the Tasmanian General Practice Forum. Similar informal sessions have already been held in Hobart and Launceston in March. This is an excellent opportunity for GPs to share their own experiences, perspectives and ideas with the Minister for Health to ensure the Tasmanian health system is informed by a strong primary care voice.

Although the meeting will be convened in the North West, GPs working in rural or remote locations are welcome to join via a videoconference option.
