

Invitation

Immunisation seminar

For GPs, practice nurses, immunisers and pharmacists

The program includes:

Professor Paul Van Buynder will share information on a variety of topics, including:

1. Influenza 2019: Record vaccines and record notifications - what next?
2. Measles in the elimination phase
3. Meningococcal disease in the 'post-vaccine era'
4. Herpes Zoster disease and vaccines
5. Pneumococcal vaccines in the elderly
6. Vaccine hesitancy

Professor Van Buynder is a public health physician. He holds an appointment as a Professor in the School of Medicine at Griffith University in Queensland.

Australian Immunisation Register will provide information about the transition from authentication file to Provider Digital Access.

The Communicable Diseases Prevention Unit (CDPU), leaders in developing and managing communicable diseases prevention and control activities that target the whole population in Tasmania, will present the following topics:

- state-funded immunisation programs
- the National Immunisation Program
- adverse effects following immunisation reporting
- useful immunisation resources
- cold chain information, including new 'Strive for 5' requirements
- vaccine ordering
- wastage and leakage.

Tanya Panitzki, clinical nurse consultant on immunisation, will present on:

- catch up immunisation schedules, including demonstration and tips
- how to avoid shoulder injury related to vaccine administration
