

Respiratory clinical update series

What is the purpose of this webinar series?

The 'Respiratory Clinical Update' series seeks to update GPs and practice nurses with new clinical evidence in the areas of COPD, lung cancer, asthma and obstructive sleep apnoea. The series will also include an education session related to inhaler technique and action plans for asthma patients in the general practice setting. Attendees will benefit from hearing from local specialists from the Royal Hobart Hospital to better understand local referral pathways and supports for their patients.

When does the webinar series start?
